

WELCOME HOME

For your safety, we have developed an infection protection concept in accordance with the current infection protection laws. All relevant points for you can be found on the inside of this flyer.

Whatever question you may have – feel free to approach us at any time.

Please help us to celebrate safe Sunday services. Thank you very much!

INFECTION PROTECTION
UNFO

1 The special form of seating unfortunately means we have to limit attendance.

We therefore ask you to register for the service in advance – free of charge – using our online ticket system. You will then have a preassigned seat reserved for you.

See www.alivechurch.de/gottesdienste

2 Within the building, a minimum distance of **1.5 metres** to all other persons must be maintained. All paths are „one-way streets“ and exits are separated from the entrance, which helps to maintain this distance.

3 **Body contact** is to be avoided.

Thus, no objects are passed from one person to the next.

4 We would like to remind you of the widely known **cough and sneeze etiquette**. Please use the crooks of your arms for this.

5 A **medical mask or respirator** that meets the requirements of **FFP2, KN95, N95 standards** must be worn for the entire duration of the stay. For children from 6 up to 14 years of age, a non-medical everyday mask or comparable mouth-nose covering is sufficient. At the Kids program, masks are not required for children up to 4th grade. Unfortunately, further exceptions to this are not possible.

6 We want to **avoid groups of people close together**. Therefore, we ask you to find your seat soon after your arrival and to leave the site in due time after the service.

7 Unfortunately, **singing** is currently not allowed for visitors to the service.

8 There are several places with **disinfectants** that are well indicated. Liquid soap and towel dispensers are available in the toilets. Please make use of them.

9 Before, during and after the service, surfaces that are used by several people (door handles, light switches, etc.) are cleaned and disinfected. **There will also be frequent and good ventilation.**

10 We have assigned **extra staff** to ensure hygiene and your safety. You are important to us!

11 Unfortunately, persons who have or had contact with a person infected with the coronavirus in the last 10 days or who show the **typical symptoms** of an infection with the coronavirus (**fever, dry cough, disturbance of the sense of smell or taste**) cannot participate in our services. For additional safety reasons we do fever measurements at the entrance (no entry above 38°C, for children up to 4th grade 38.5°C). We ask for your understanding.

12 We continue to offer our online experiences. You can find the stream on live.alivechurch.de

13 All services with an attendance of more than 10 people will be registered no later than 2 working days beforehand at the responsible **Ordnungsamt**.
